

Corporate Sponsorship Opportunities Imagine the Impact....

GOT Ministries empowers and serves children with disabilities in Guatemala.

We bring hope and love to children with disabilities through occupational therapy services. GOT teaches adaptive strategies to children with various skills and limitations to support independence and success in school. The children we serve have no other access to such therapy services, and often are abused, discarded, and seen to have no value. Be a part of our mission to empower and serve, and bring hope to children with disabilities in Guatemala.

You can do so by becoming a CORPORATE SPONSOR!
